## ASSA ABLOY

The MLS profile cylinder is of very high standard. With the advantage of having 6 pins, complex locking systems can easily be planned and maintained, without the risk of being compromised.

Because of the use of key code registration and the associated certificate the MLS cylinder is perfect for buildings that need to be secured. Therefore it is especially suited for large master key systems, as well as single differs.

Each cylinder is issued with a key code registration card.

## MLS

### High standard and durable profile cylinder

Type:	MLS
