

MAUER

ASSA ABLOY

The New Wave 6 is the ultimate version of the already excellent New Wave 4 and 5.

This cylinder has a complex anti-drill construction, anti-bump and anti-pick protection. An important feature is the specially constructed, patented cam and additional reinforcing element in the cylinder body.

Besides that the New Wave 6 cylinder has an innovative anti-snap protection which blocks the cylinder when burglary is attempted!

The New Wave 6 also has the SKG*** approval as it conforms to the highest European security norms regarding rotor pulling – 1500 kg.

New Wave 6

With innovative anti-snap protection
